

6/22/70

Dear Dick,

Howard read and enjoyed your letters of the 15 and 16 today. He is here and has indexed my Archives and Justice files and is beginning SS. He is finding it interesting and worthwhile and I am going to find it very helpful and we will all have access this way. Ultimately it will be typed, but not at this moment, for none of us has the time.

He is a very disappointed young man, for he was looking forward to going into federal court with me tomorrow, hair and jeans and all. I think he is almost sorry I won again! In a way, Bud and I both are.

Mary is also getting the Nix and Muchmore.

In your next dissertation on goats, be so kind as to specify sex. It is only the billygoat who is so pungeant, and the reason is fascinating.

We have carried the shirt slits and the shirt far forward. More when it is definitive. You should now have my memo on the picture I got and the letters carrying this request forward.

I do not mean to suggest I believe there had to be or was a shot later than 313. I merely mean we cannot ignore the possibility.

Neck fragments: at the moment I am persuaded they were neither that small or in that precise area.

Your points about the water-jar and the apple are interesting.

If Sprague has someone named "Hazel" with him, he passed along to Sk the phone slip. I have Skolnick's file, pre-suit copy, before he removed this part.

Bradley: I have no reason to believe he was there, none to believe he would have involved himself in this kind of thing, but this has nothing to do with Braden, about whom I know little. The man who wrote the letter I sent you is a former FBI agent with good current contacts in the key office.

Negative arrived today also.

Howard will write you on his return home. I just asked him if he has anything to say. He is too deep in various files to even think of anything. He's a great boy and is being very helpful.

Best regards and good orals luck,
